

AVIATION DEPARTMENT - Fort Lauderdale/Hollywood International Airport
2200 SW 45th Street, Suite 101 • Dania Beach, Florida 33312 • 954-359-6100

MEMORANDUM

DATE: July 23, 2015
TO: Tim Ryan, Mayor, Broward County Board of County Commissioners
FROM: K.G. George, Director of Aviation
SUBJECT: City of Dania Beach Sound Test Reports

Mayor:

When we met Monday, you requested I look into providing information to Anne Castro concerning various subjects at Broward County's Fort Lauderdale-Hollywood International Airport (FLL) on a monthly basis.

In the following, I will reply, in order, to the questions Anne sent in her email to you dated June 11, 2015 at 9:22am.

1. List of addresses of homes that have been deemed compatible and therefore not receiving sound insulation/reduction
Attached is the requested list.
2. List of address of homes that have been completed (construction/inspected/finalized)
Attached is the requested list.
3. List of addresses of homes that have DECLINED to participate in the program
Attached is the requested list.
4. Separate report for each and ALL noise monitors
Monthly Reports for all the noise monitors located at FLL are available on the Aviation Department's website, at this link:
<http://www.broward.org/Airport/NoiseInformation/Pages/ANACCommittee.aspx>
5. A list of all noise events in excess of 65 decibels
Historically, all the monthly noise monitoring reports listed only the loudest noise events for all the locations (through March, 2015). However, pursuant to the last Airport Noise Abatement Committee (ANAC) meeting held on June 8, 2015, the committee requested that moving forward, all the monthly noise monitoring reports should be expanded to provide all the noise events in excess of 65 decibels. As a result, all noise monitoring

reports from April, 2015 onwards will provide noise events in excess of 65 decibels and these reports will be available on the Aviation Department's website at this link:
<http://www.broward.org/Airport/NoiseInformation/Pages/ANACCommittee.aspx>

6. List of flights that operate from SOUTH runway 10:30pm – 6:00am
An analysis was conducted for all operations on the South Runway on July 18, 2015, between 10:30pm – 6:00am and there were no operations on the south runway during this time period. Please note the south runway is voluntarily closed between 10:30pm – 6:00am.
7. List of flights that operate from the NORTH runway 10:30pm – 6:00am
An analysis was conducted for all operations on the North Runway on July 18, 2015, between 10:30pm – 6:00am and there were 70 operations on the north runway during this time period (see attached listing).
8. List of any lawsuits that have been brought against the Broward County Aviation Department (BCAD), their program manager, or the County for noise impacts.
As of this date, BCAD has not been served with any actions concerning noise impacts.

If Anne would like the above information on a monthly basis, I suggest she prepare a formal request to BCAD, and we will in turn, price the request to produce the information in accordance with County policy.

I hope this helps.
